

ATTEND THE BIOTECK SYMPOSIUM

New frontiers in intra-articular, peri-tendinous, and intramuscular injections: the use of hydrolyzed collagen

When: Friday 22 May / 13.10 to 14.10

Where: HALL: D5-7

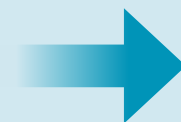

Intended for: orthopedists, sports medicine physicians, physiatrists, interventional radiologists, pain management specialists

Prof. Tomáš Trč

Professor of Orthopaedics at the Second Faculty of Medicine, Charles University, Prague, Czech Republic

BIOTECK SYMPOSIUM ESSKA CONGRESS

HALL: D5-7

22 MAY / 13.10 TO 14.10

BiOTECK[®]
INNOVATING BIOMATERIALS

New frontiers in intra-articular, peri-tendinous, and intramuscular injections: the use of hydrolyzed collagen

- 13:10 – 13:15:** Company welcome and symposium introduction
(*Marco Morroni*, Bioteck SpA, Italy)
- 13:15 – 13:25:** **Hydrolyzed collagen for injections: biological background** (*Prof. Tomáš Trč*, Prague, Czech Republic)
- 13:25 – 13:30:** ChondroGrid[®], the first hydrolyzed collagen for pain reduction and functional improvement for joints, ligaments and muscles. Technical details (*Marco Morroni*, Bioteck SpA, Italy)
- 13:30 – 13:40:** **Clinical evidence in knee osteoarthritis: literature overview and comparative study with HA and PRP**
(*Dr. Angel Alberto Heredia Sulbaran*, Huelva, Spain)
- 13:40 – 13:45:** **Evaluating collagen injection therapy for knee OA: outcomes from a clinical investigation in Czech Republic**
(*Prof. Tomáš Trč*, Prague, Czech Republic)
- 13:45 – 13:55:** **Clinical evidence in knee osteoarthritis: literature overview and comparative study with HA and PRP**
(*Dr. Angel Alberto Heredia Sulbaran*, Huelva, Spain)
- 13:55 – 14:00:** **Preliminary results on muscle injuries**
(*Dr. Angel Alberto Heredia Sulbaran*, Huelva, Spain)
- 14:00 – 14:10:** Q&A

**Stay up to date on our products, news, and upcoming events
